

## 2023 Series Regulations

### Format

- The series is open to ALL Porsches of any age or persuasion.
- The CALM All Porsche Trophy Series offers competitors a great deal of freedom in tuning your Porsche whilst at the same time providing a framework that keeps cars competitive and cost effective.
- A mixture of sprint, 20 & 40 minute races, plus qualifying, with a mandatory pit stop.
- Great value racing – with the ethos of safe and gentlemanly driving standards.
- Entries may be by single drivers or two drivers sharing the same car.

### Classes

- The class structure will be organised on a maximum bhp (at the wheels – NOT the flywheel as before) per tonne, including the driver, as follows:

*SP1 181 – 230bhp/tonne Blue sticker*

*SP2 161 - 180bhp/tonne Red sticker*

*SP3 131 – 160bhp/tonne Yellow sticker*

*SP4 Up to 130bhp/tonne Orange sticker*

- A coloured sticker, as described above, will be provided to identify each class. The stickers must be applied to the front and rear of the car.

### Invitation Class

- Any car not meeting any of the above but deemed a positive entry by the organisers, meeting the current Motorsport UK regulations.
- Proof of power and weight must be lodged with the organisers before an entry can be accepted. All power to weight figures must be self-declared and will be monitored and checked through the season.
- The organisers reserve the right to adjust a competitor's class should lap times in qualifying dictate.

### Safety

- All cars **must** carry forward facing in cockpit cameras and must be switched on at all times when on track, even in qualifying. The SD card must be surrendered upon demand to the stewards of the meeting as evidence of any incident.

### Bodywork

- The original silhouette is, largely, to be retained from all angles, with the exception of limited production splitters and wings.
- In the interest of economy, the aftermarket GT3 type fibreglass bumpers are allowed on all Boxsters.

### Engine and Transmission

- Original engine and gearbox type to be retained, internals are free, but no sequential gearboxes, unless supplied in original road car. 'Original engine and gearbox type' means the same engine (block and head) and gearbox as was available from the factory in period.
- If fuel-injected, throttle bodies are allowed, fuel-injected cars may run carburettors but not vice-versa. Fuel injection and carburettor type are free.

### Suspension & Tyres

- Cars may run on any treaded tyres in Motorsport UK list 1A/1B/1C. No slick or rain tyres allowed except for the Birkett Six-Hour race.
- Springs, dampers, springs arms, links and wishbones are free.

### Pit Stops

- A mandatory pit stop is required for all cars during 40-minute races. This will allow a driver change in two-driver teams. Solo drivers can remain in their cars.
- The engine can be kept running during all pitstops.
- During the stop, each car must be stationary for 60 seconds.
- Each team will be responsible for the timing of their stop. The organisers will use the official timing provided on the day to police the duration of each stop.

### Awards

- Awards/Trophies given at each round: 1st, 2<sup>nd</sup> & 3rd in each SP class.
- All cars must display the correct club stickers as supplied by the organisers upon registration otherwise they may not be eligible for awards.

### Technical rights of the CALM All Porsche Trophy organisers

- The organisers have the right to overrule any of the above rules, including moving a car between classes and/or treat any applicant individually as seen fit to help promote and to enhance the series, and to protect and respect the position of all existing competitors.
- The organisers welcome all new enquiries but advise all interested parties to contact us before building or purchasing a car so we can help ensure the car is suitable for the series. The organisers also reserve the right to re-classify any car from a meeting that does not comply with the series technical regulations or is not prepared to an acceptable standard. The organisers reserve the right to amend these series regulations at any time in the year.
