BULLETIN:	001

5.8 Suspension

~~6) A measurement of 275mm must be retained between the front bottom wishbone in-board chassis mount and the bottom mounting of the front shock absorber on either side.~~

~~6) \_\_\_\_\_ The distance between the front bottom wishbone in-board chassis mount and the bottom mounting of the front shock absorber on either side must be no more than 275mm~~

Reason For Changes

The existing regulation is erroneous as the intention of the rule was to prevent people extending the distance beyond 275mm in the interests of safety.
